ENGINEER UPDATE ON CITY PROJECTS: Discussion/Action

Sewer: Per Andrew the city can allow Desert View to remove the material and then the City will need to pay approx.. \$23,000 and we could use our ARPA funds.

Mayor Christoffersen asked for a motion to approve the Desert View Construction to remove approximately 20,000 yards of material and the City pays the \$23,000; Councilman Tines made the motion and Councilman Atkins seconded. Motion carried by full Council.

Water: there is approximately 300 feet on Main Street between Idaho Street and Owyhee that needs to be replaced. Andrew said we will need to get bids to do the replacement. Per DEQ we can put this in the funding for the well or we can use ARPA funds.

Andrew reminded them the City must test for arsenic every 3 years. We also will need to drill a new well by the Ustick well.

LHTAC – Transportation Plan; the City needs to update our Transportation Plan; last plan was in 2009 or 2010. LHTAC will pay up to \$50,000 for the engineering costs. Mayor Christoffersen asked if we had power in all of our plans; Comp. plan....
