

Incentive Details

Idaho Power is offering an enhanced incentive which pays \$0.40 per kilowatt-hour (kWh), estimated annual savings.* Customers will be responsible for any project costs that exceed the allowed incentive. Customers will not directly receive an incentive from Idaho Power. Customers remit their portion of the project cost directly to their contractor.

Lighting retrofit opportunities may include:

- Fluorescent lighting to LEDs
- Upgrade to LED exit signs
- Inefficient exterior lighting to LED lighting
- Lighting controls

Upgrading to efficient lighting will save you energy and money, and you'll enjoy several additional benefits. Most upgrades:

- Reduce maintenance costs
- Improve customer and employee comfort
- Enhance visual appeal
- Improve safety
- Extend equipment lifespan

*Incentive capped at total project cost.

Get Ready to Save!

Participation is easy! Follow these simple steps to save energy and money with Idaho Power:

1. **Select one** of the following options to get started:

OPTION A

Visit the list of participating contractors at idahopower.com/sbl, and select a participating contractor to request your free lighting assessment today!

OPTION B

Don't want to choose a contractor? Send an email to sbl@idahopower.com or call 1-800-632-6605, and Idaho Power will send your information to a participating SBL contractor who will contact you to schedule a free lighting assessment.

2. **Schedule a free lighting assessment** with a participating SBL contractor who can identify energy-saving opportunities and confirm eligibility to participate.
3. **Receive and review a simple proposal** outlining the lighting retrofit project details from the contractor.
4. **Schedule the energy-efficient lighting installation** and the participating contractor will install the lighting retrofit.
5. **Pay your reduced portion** of the lighting retrofit cost to the participating contractor.
6. **Complete the program survey** and enjoy your upgraded lighting and energy savings!
